

Anna - celebrating 40 years of service

Anna Kendry is a Support Worker based at our Moreton-in-Marsh service in Gloucestershire and has worked at Hft for over 40 years. She shared her experience of four decades with Hft.

What inspired you to start working at Hft?

I began working at one of Hft's services as a Craft Instructor in the late 1970s. I had always been creative and was keen to inspire and help people with learning disabilities to develop their creative skills.

How has your role with Hft changed over time?

As time has gone on, Hft has become increasingly focused on offering person-centred support. I've really enjoyed having the opportunity to help the people I support to develop their independence and confidence. I also like to pick up on an individual's interests and enjoy experiencing related outings together.

What has been one of the best things about working for Hft for 40 years?

As many of the people we support have been with us for so long, we have been able to grow old together, develop and flourish. That is something really special.

If you think support work might be right for you, visit www.hft.org.uk/jobs and find your place with Team Hft.
